Monthly Pay in Advance: How it Works

When you pay in advance monthly, payment starts on the first full week of the month.

That means when you pay, you are current for the first full week of the month, until the week the month ends on. The average pay in advance amount for a month will cover 4-5 weeks of payments.

2026 monthly payment schedule.

- September – 4 weeks in advance.
- October – 4 weeks in advance.
- November – 5 weeks in advance.
- December – 4 weeks in advance.
